

# FRANCES HEALY

Frances Healy Interiors Ltd

**Tell us a little about your background and expertise...** After art school and an apprenticeship with a large London interior design firm, I returned to my beloved Cornwall and now run my own interior design business.

**What is your favourite thing to work on/make?** I just love houses – large, small, old, new – I always see the magic in them and love the challenge of turning them into something glorious for their owners to enjoy.

**Why should locals consider using your service?** I live in and love Cornwall. I understand the West Country – how it ticks, the people, the environment, the history - all of which I marry with over 30 years' experience in my industry. I have a full team of local suppliers so there is never an issue with getting good quality work done efficiently, but my time in London also means that I have large address book of other contacts nationally and overseas, so I can access a full range of products to offer anyone living here.

**Address:** Bosbigal, Tideford Cross, Saltash PL12 5JY

**Telephone:** 07862 252461
